7 MUST-HAVE CROCHET TOOLS

01

Crochet Hooks

Crochet hooks come in many shapes and sizes. Experiment with different hook styles to find your perfect match. Try [THESE HOOKS](#) to start.

02

Scissors

Scissors are mainly used to snip yarn when weaving in your ends. Classic school scissors work well, but check out [THESE SCISSORS](#) for a bit more flair.

03

Tapestry Needle

Tapestry needles help you glide yarn through your stitches while weaving in your ends. I prefer metal needles like [THESE ONES](#).

04

Tape Measure

Use a tape measure to accurately measure yourself before making wearable projects. You can also use a tape measure to check your gauge. A soft tape measure like [THIS ONE](#) is perfect.

05

Stitch Markers

Stitch markers help you count stitches, hold your active loop, connect pieces of crochet fabric and so much more. [THIS SET](#) of locking stitch markers works well for most projects.

06

Notebook or Tablet

Use a notebook to track your current and past projects and make notes of your progress. [THIS ONE](#) is a favorite - I've filled several over the years.

07

Project Bag

Carry your projects around in style with a project bag made just for yarn lovers. [THESE BAGS](#) are inexpensive and come in dozens of styles.
